Mr. J. F. Masters, Cashier of Emmitt & Co.'s Bank at Waverly, Ohio, says: "I consider Chamberlain's Cough Remedy the best I ever used. After using several other kinds, without benefit, I tried it and it quickly cured me, after years of suffering with an obstinate cough trouble." 50 cents bottles for sale by all leading druggists

They know how to cure rheumatism in Pennsylvania! Mr. J. F. Meighan, a Pittsburg cigar dealer awoke one morning with an attack of rheumatism in his right arm. Working around the store during the forenoon made it worse. By noon the pain was so severe that he could not raise his hand to his head and had to carry his arm in a sling. One of his customers, on learning the facts, went across the street to E. E. Heck's drug store, and at his own expense procured a bottle of Chamberlain's Pain Balm and persuaded the cigar dealer to try it. It eased the pain and reduced the swelling so that by the next morning he could use his arm, and by the second morning was entirely well. This is only one of the many severe cases of rheumatism that have been cured by this valuable remedy. 50 cent bottles for sale by all leading druggists. m18

**How Can Parents** allow their children to cough and strain and cough and calmly say: "Oh! it's only a little cold," and keep giving them cheap and dangerous medicines, until they are down with lung fever or consumption, when they can be so easily relieved by BEGG'S' CHERRY COUGH SYRUP? It has no superior and few equals. W. H. Chedie, Druggist.

**Cough! and Cough! and Cough!** What in the world is the reason you will cough and keep coughing and still keep trying inferior medicines when BEGG'S' CHERRY COUGH SYRUP will positively relieve your cough at once? This is no advertising scheme, but an actual fact, and we guarantee it. W. H. Chedie, Druggist.

The cost of these toys was upward of \$6,000.

The Index is printed on colored paper for the reason that next Monday will be St. Patrick's Day, and we want to catch the Irish vote. Maybe that next week it will be printed on bed-ticking or barley sacks. No freight-teams have arrived for five months, and we are short of white paper—Homer Index.

The Philadelphia Ledger says that since the High License law went into effect the deaths from "alcoholism" in Philadelphia, according to the Board of Health returns, have fallen from 141 in 1887, to 70 in 1888 and 57 in 1889, while the deaths from mania-a-potu have dropped from 19 in 1887 to 9 each in 1888 and 1889.

We understand that he has it now nearly completed, and we hope to see it in print at an early day.

The immigration to this country during 1889 was 100,000 smaller than it was in 1888. There has been a pretty steady decline since 1882, when the number of immigrants reached 720,000. Since 1820 the United States has received from foreign countries an aggregate of about 15,000,000 people, of whom Great Britain has sent about 6,000,000, Germany about 4,500,000, Norway and Sweden about 800,000, and France about 350,000. Ireland alone has sent nearly 3,500,000.

**WHAT ON EARTH**—Is the reason people will not, cannot, or do not see any difference in cheap nostrums put up by Cheap John houses or irresponsible parties at enormous profits, rather than take a medicine of world wide reputation and one that is giving universal satisfaction at equal price? No medicine in the world is giving such unparalleled satisfaction for purifying the blood as BEGG'S' BLOOD PURIFIER & BLOOD MAKER, and every bottle that does not do its work, will cost you nothing.—W. H. Chedie Druggist.

**AT WASHOE LAKE.**—Since the storm, there is a great change at different points of the lake, at the north end, the water has backed through the dam erected by Theo. Winters for the purpose of keeping the water on his land. It is now impossible to cross. On the east side, the sloughs are all full of water, it also makes it impossible for teams to go on the road. About 60 acres of land is being cultivated by some ranchers a little further back towards the mountains. At the southeast end the place known as the Sheep Ranch has all been torn down, and lumber carried away. At the windmill, a little to the west, the snow has drifted so high that teams have to go into the lake to get past it. At James Arthur's ranch everything seems abandoned and drifts of snow can be seen in every canyon. On the west side, Snippy, the only inhabitant can be seen at any time, looking as though nothing in the shape of a storm had been heard of.

**NUTS TO CRACK.**—Take a piece of tin or paste-board 8 inches square, and make it into 64 square inches by lines. How can you cut it into four pieces, so that you have 64 square inches and the lines meet exactly. Take the following figures 1, 2, 3, 4, 5, 6, 7, 8, 9, and make 100 out of them; but in doing so all the numbers must be used, but not more than once in the computation.—Ex.

**JUMBO DISTRICT.**—The only mining claims in Jumbo District that were worked steadily all winter, and the only mines that have ore now on hand to reduce are J. C. Dunlop's Wild Goose mine and Willis & Wood's Blizzard. The supplies to operate both claims were had principally from Washoe City.—Enterprise.

**OLD GABRIEL DEAD.**—A remarkable instance of longevity has suddenly passed away. **NOT AS GOOD AS REPORTED.**—A mining man, who has returned to Spokane Falls from the diamond and gold fields of South Africa says the mines are not what they are cracked up to be, and that is a poor country for a poor prospector to emigrate to. **NICKNAMED.**—The new States have all been nicknamed, but the character of the nomenclature is more suggestive than elegant. According to supposed authority Dakota is the Flicker Tail State; South Dakota, Swing Cat; Washington, Chinook; Montana, the Stuffed Toe State.—Reno Journal.

**MAIL ROUTE ESTABLISHED.**—Senator Stewart has succeeded in getting a weekly mail established between Wienemucca and Miller's ranch in Pleasant Valley. Joseph Miller has been appointed Postmaster and he made out his bonds today to be sent to Washington.—Silver State.

One of the victims of the grip in our city was speaking to a friend of the different ways in which it attacked people. "Some," he said, "have it first in the back, some in the chest, and I had it in my head. It always attacks the weakest place first." After a pause something seemed to strike him, and he added, "I am glad I said that before you did!"
